

Ak-Sar-Ben went to me and went to a bunch of others and said, talk to Vard Johnson, talk to the Revenue Committee members, have them do a little something for us, even if it is just a little something. How about the \$7 million? Can you do that, if you just do that? And the Revenue Committee finally listened and they did that. And, by golly, you get it out here and what do they do? Then they go for the whole hog. Then they go for the whole hog. As far as I am concerned, they are going back on their deal if there ever was such a thing as a deal. Imagine that, Marge, huh? But I just can't believe the arrogance of the lobby. Good grief! Give them an inch and they want the whole ball of wax and they don't mind just going after it two or three or four times or however many times they can pound us in here. I certainly hope you won't adopt this particular amendment. Thank you.

SPEAKER NICHOL: Senator Schmit, please. Senator Labedz. Oh, excuse me, no, Senator Nelson first and then Senator Labedz. Senator Labedz. Excuse me, Senator Schmit, you turned your light off and I skipped over you. I thought you didn't want to speak. You are on.

SENATOR SCHMIT: I won't say...I won't speak very long. I have a little bit of interest in the Columbus track. I think they need the break. I think we will just read the bill.

SPEAKER NICHOL: I'm sorry, I didn't know you wanted...now Senator Nelson. Senator Labedz, would you like to speak while Senator Nelson...oh, Senator Nelson is here. Excuse me. Okay, Senator Nelson, then Senator Labedz, then Senator Withem.

SENATOR NELSON: Mr. Speaker, members of the body, I have an amendment up there. In the first place, I want to move it back to Select File for this amendment. What it does is it simply makes it...all right, I am speaking...I will speak to my...excuse me. I was...we are not on my amendment.

SPEAKER NICHOL: Yes, we are on Senator DeCamp's.

SENATOR NELSON: Excuse me.

SPEAKER NICHOL: All right. Senator Labedz, please.
